Subject: Mike Horse Dam Comment

To who it may concern,

I am a resident of Lincoln and I want to make it perfectly clear I am opposed to moving the contaminates from the Mike Horse location to an off-site location. Containing the contaminates on site is my preference. The financial impact to the Land Owners in that area will be greatly affected and also the commercial interests in Lincoln by the years of truck traffic during the summer months. All this will affect the area in a negative way.

Working to contain the contaminates on site is by far the best and wisest choice and I am sure much less expensive.
